

How to know which SSP I will be getting traffic from?

To see available SSPs, please create either a **Display** or **Native** campaign. After that, please click **Advanced settings** and select **Run on all sources checkbox** from the **Supply partners** tab.

It will show you all available traffic sources for the channel you selected.

Supply partners Run on all sources

- AdsKeeper
- Disqus
- SmartyAds Native
- The Agency/ AdMedia Native
- Avocarrot
